A Self-Advocate’s Guide to COVID-19

Part 4: COVID-19 Medical Information Form for People With Disabilities

This form helps you think about what support you need if you must stay in the hospital. Many hospitals have new rules to keep people safe during the Coronavirus outbreak. Your hospital may say you cannot have any visitors. Fill out this form with your team. It will help you advocate for your rights. It can help you get the medical treatment and supports you need.
COVID-19 Medical Information Form for People With Disabilities

I am a person with a disability.
Please read this before you help me.

Giving Consent
☐ I am my own Guardian
☐ I have a Substitute Decision Maker
☐ I have a Guardian
☐ I have a Supported Decision-Making Team

Adapted by Green Mountain Self-Advocates from Ballan, M. & Perri, C. COVID-19 Disability Form
Advocacy Alert: Many hospitals are not allowing patients to have visitors because of COVID-19.

Talk to your team. Think about what support you need if you must stay in the hospital. Tell the hospital, “I have a disability. If I have to stay in the hospital”:

- I can stay on my own in the hospital.
- I can stay on my own if I always get support by phone when getting medical updates or making decisions. I need phone support from Name: ______________________ Phone: ______________________
- I cannot stay in the hospital alone. I must have a patient support person to help with advocating, communicating, understanding or self-care.

To Protect Your Rights in Vermont call 1-800-834-7890. Leave a message. Say your name and the hospital you are at. Disability Rights Vermont will call you as soon as possible.

If you have an advance directive or a living will, bring a copy to the hospital. If you do not have a living will, think about what you want.

1. If you cannot breathe, do you want a machine to help breathe for you?
   - Do you want it at all?
   - Do you want to try to see if it could help?
   - Do you want to use it for as long as you need it?
2. If your heart stops, do you want your doctor to try to restart it with pushing on your chest, medications, and electric shocks?
3. If you cannot eat or drink like you usually do, do you want food and water to be given to you through a tube to your stomach or in a vein?

This form can help you get the support you need when in the hospital.
